AMERICAN NUMISMATIC ASSOCIATION

The American Numismatic Association is the largest and most active numismatic body in the world. It invites and welcomes to membership all worthy persons seventeen years of age or over, who have a sincere interest in numismatics, whether they collect coins, paper money, tokens or medals, whether advanced collectors or only those generally interested in the subject without being collectors. The Association was founded in 1891, and has over 20,000 members from every state in the Union and many foreign countries. It is federally incorporated by an Act of Congress in 1912 and is a mutual organization for the benefit of its members.

All Association members, except Associate, receive the official publication, *The Numismatist*, without cost other than their annual dues. Membership applications should be accompanied by \$5.00 for the first year's dues and \$2.00 admittance fee. Annual dues are \$5.00. Nonmember subscription, \$6.00. Single copy, fifty cents. For application blanks, subscriptions or general information, write to the General Secretary.

The Numismatist is an illustrated monthly which has been issued continuously since its founding in 1888, consists of 128 pages or more in each number and has subscribers in about sixty countries. Advertising inquiries should be sent to the Advertising Manager. All other matters for possible publication in or concerning *The Numismatist* are to be forwarded to the Editor. Unsolicited manuscripts, which are sent at the owner's risk, and other correspondence calling for a reply must be accompanied by stamped, self-addressed envelopes. COIN COLLECTING TODAY

By

JUDGE JOHN FONTRON, JR., A.N.A. No. 36520

A speech given at the Oklahoma-Kansas Numismatic Association convention banquet, October 22, 1960

YOU certainly may not be blamed if you feel bewildered at seeing me in the role of your speaker, for I am a rank novice when compared to the great wealth of numismatic talent in attendance at this convention and at this banquet.

Since no title has been assigned me, I suppose you might call my discourse "The Rambling Remarks of a Random Collector," for truly I am not a professional in any sense of the word — just an amateur who only spends — and does not make — money in the cause which has impelled us to gather here tonight. Not that I have ever been repelled by the thought of profit or gain. Heaven forbid! I have been married far too long not to have acquired a healthy respect for the lucre that helps lubricate the wheels of matrimony.

But I am a comparative newcomer to the delightful field of numismatics. Of course, as I sentimentally survey my long lost youth, I suppose I had the usual youngster's fondness for a pocket full of jingling coins and the average curiosity about money of foreign lands. However, outside of acquiring a few old pieces circulating through ancestral halls and picking up a bit here and there during the war, my numismatic instincts lay largely dormant for many years.

It was only this year that my acquisitive instincts pushed me actively into the market. And this past year, I have learned to my sorrow, has probably been the very worst year in history for a poor man to start building a coin collection — at least a collection of United States coins.

Recently I read somewhere that the number of collectors has mushroomed to four million in this country, and, judging from the plethora of circulars, dodgers, brochures, lists and other third class matter I receive in my mail, I cannot doubt the accuracy of that figure. This huge multitude would of itself, by the sheer force of numbers, impel a bull market, to the dismay of beginners of modest means.

Aggravating inflation in the coin economy, and compounding scarcity of the newer issues, has come hoarding. This tendency is most highly epitomized in the practice of so-called "roll collecting." In such guise the unwelcome face of avarice, never too far below the human surface, intrudes into an honored avocation.

Not that I am unmindful of the reasons advanced for collecting rolls. And, in all candor, I am bound to admit the validity of at least some of the reasons given. But nothing I have so far heard can disguise the unlovely fact that the majority of those who invest in rolls are looking for an "easy buck."

Now may I say here that I do not condemn the profit motive in business. It is the heart of our economic system which pumps the lifeblood of capital through the arteries of our marvelous industrial plant. I was appalled to learn, recently, that a poll of certain high school seniors disclosed that eighty percent believed that profit was not essential to the functioning of our system, and that sixty percent of the teachers who taught those youngsters did not believe in the profit motive. I believe that this is an alarming situation.

But I believe, also, that emphasis is misdirected when the making of profit is placed at the center of a reputable hobby; when gambling for gain becomes the motivating force behind collecting in any category, whether it be first editions, sea shells, paintings, buttons, antiques, cigar store Indians, totem poles, or what have you.

I have always held collectors in high regard as individuals who, for the sheer joy of it, pursued their quest for the beautiful and rare. To substitute financial success as the ultimate goal of a hobby is to cast reflection upon the craft. If such should become the goal of four million American collectors, which I hope it will not, one can only visualize the eventual disintegration of a fine hobby into a trade.

Mind you, I am not critical of the legitimate dealer. I know he is essential to the collector. The wonderful and alluring bourse at the Baker Hotel is sufficient proof of that. Why, bless the dealers' souls, I know full well they will entice me again, as they have in the past, to spend twice as much as I can afford. And I love them for it. But we cannot all be dealers, not even parttime dealers. Which is just as well, I am sure, for most of us can do far better in life if we will rely on our profession or trade for a living, and on our sideline for diversion and relaxation.

And relaxation it assuredly is. At least it is relaxing for me, to turn from tragedy, the bitterness, the turbulence of a day spent hearing domestic difficulties, to the quiet placidity of home and an evening with coins. For coins can't talk back. And it is quite a contrast too, for unlike a coin collection, the divorce court holds no uncirculated pieces. The principals always show some wear and tear, some sign of handling.

So I should advise the young collector, strictly as one amateur to another, to eschew the thought of gain, and substitute the pursuit of enjoyment. Not only will he thus derive greater personal satisfaction, and not debase his hobby, but if he selects wisely as he goes along, his

collection will enhance in value over the years.

I personally deplore any contribution which our eastern contemporaries may have made to the cent shortage reported in New England last summer. The reports, I am sure, were not unfounded, for a recent article in *The Numismatist* points out that the recent trend toward collecting and hoarding rolls is exhausting the supply of many issues, creating false markets and increasing prices. This seems a sound analysis. To me such a trend is a discredit to collectors. If one must speculate, let him do it in the marts of commerce and trade or in the stock market.

But enough of carping and gloom, for the field of numismatics offers many compensations of a high order. However, it is my opinion, and here I fully understand that, in many of your eyes, I may be guilty of rank heresy, many, if not a majority, of those compensations can best be found by the little fellow in the area of foreign coins. Because the collector of modest means, which includes most of us, is in danger of being priced out of the domestic market, so far as fine coins are concerned. For evidence of this one need only look at recent sale catalogs.

Incidentally, I get quite a kick from mail order auctions; I enjoy figuring and submitting bids. My first experience was quite a fiasco, however, for I innocently believed the estimates were approximately correct. In consequence my bids on a number of pieces were innocuously submitted on that basis, and not too far under the estimates, in the hope that perhaps I might be high on one or two. You can imagine my surprise and consternation when I received every coin bid on, and hurriedly had to seek my banker's indulgence. Now I am more cautious, having learned it is wisdom to be adequately informed, and to consult the works of Mr. Yeoman, Mr. Davenport and others.

Part of the domestic pinch in prices can probably be traced to the solemn pre-occupation with "dates" which obtains in this country. We

are obsessed by acquiring long series of United States coins which are as alike as peas in a pod, with the minor exception of date. Of course I, too, must plead guilty to this infatuation, for Mrs. Fontron and I, as doting parents will do, are even now trying to fill a number of those ubiquitous "penny boards" for our daughter.

However, this unfortunate intoxication with dates does not result in imaginative collecting or to excellence in the items acquired. There is a bit of monotony to a series of coins which, like the Lincoln cent, has changed not a whit in design for fifty years, or the Indian Heads which for a similar period have not varied. I am inclined to agree with the author of a recent article who moaned that dates are a nuisance to all men except collectors of American coins who worship these time symbols with passionate and misguided idolatry.

I submit that beauty, artistry, charm, historical and commemorative significance—these are the qualities which one should desire and search for in coins. These attributes frequently can be found in greater abundance and variety in the coinages of foreign lands than in ours. Current issues of many nations in proof and uncirculated condition are wonderfully attractive (although it must be conceded that our own current coins in like condition are beautiful also). And I certainly do not wish to be understood here as selling our own country's wonderful coins short.

However, it is in the category of older pieces, especially, that the coins of foreign mintage frequently possess superior attraction—and old coins can be beautiful, too—not, perhaps, with the fresh and pristine beauty of a winsome school girl, but with the mature grace and charm of a lovely woman. For beauty and variety in design, for sheer and creative artistry, for fine condition and moderate price, one may well look to coins from many foreign lands.

And I believe also that an interest in foreign coins and currency may serve a useful contemporary purpose in this troubled world. We

live in a global age. No longer are we an insular nation. Our interests are worldwide. Our destiny is inescapably bound with the destinies of all nations and peoples. If any lingering doubt of this remained in any mind, that doubt must surely have been finally and utterly dissipated by the unprecedented events of the past few weeks at the United Nations.

Never has it been so essential that every one of us have a thorough knowledge and understanding of history, and the events which have molded the world to its present shape. Never has it been so vital that we understand and maintain cordial and sympathetic relations with other peoples everywhere. Never have the times demanded more intelligent study or greater comprehension of far away places and their problems.

I would not be so naive as to contend that numismatics could ever supplant or be a substitute for the serious study of world history or of current issues, but I do suggest that one may learn a good deal about geography and foreign lands and about the past, through an intelligent study of the monies of other realms and other times.

Numismatics is the science of coins, paper currency, medals and the like, and the serious collector will know his coins. He will inform himself about the country of their origin, about the era in which issued and about the significance they bear to both place and time. What a marvelous opportunity is thus offered, through the pursuit of a fascinating hobby, to renew acquaintances with history germane to the present.

For coins can recount many things about the past, they may measure the milestones of history. The glories of Greece, the rise and fall of Rome, the emergence of Medieval Europe, the pride of the Holy Roman Empire, the coalescence of the German states, the decline and resurgence of oriental empires, the sweep of the British Commonwealth, the awakening of subject peoples—all these phenomena, and more, may be seen reflected in the mirrored surfaces and etched designs of coins.

What better way, today, to help impress upon our conscious minds the almost daily birth of new states, and the dissolution of colonial empires, than to note the changes in coinages; the passage of old patterns from the scene and their replacement with the new.

And today, when the understanding of all peoples is such an urgent necessity, may we not make a contribution to that end through our mutual interests with fellow numismatists throughout the world. For this science of ancient vintage is

universal in scope and appeal. Each contact we make, every transaction we conclude with fellow hobbyists in foreign lands, may well add its small part to the sum total of human amity and good will.

Finally, may I reiterate my belief that ours is a grand and entrancing avocation, and express the hope that, when the pressures of age force my retirement, I may spend my last tottering years with my wife in fuller enjoyment of our hobbies; our grandchildren, our flowers, our books, and our coins.

Society of Medalists: Sixty-Second Issue

Adlai S. Hardin, Lyme, Conn., designed the sixty-second issue of the Society of Medalists shown here. The artist has this to say on this medal:

"The Nativity Scene, and the Shepherds of Bethlehem gazing awestruck as the Angel speaks to them — these are the subjects of this medal. Down through the ages, this wonderful theme has brought its meaning of hope and joy to mankind. For almost two thousand years, the great and

simple story of the birth of Jesus has been told by voice, by printed word, in painting and in sculpture.

"This then has seemed to me a fitting subject for a medal as the Christmas season nears and it reflects, too, my own special interest in sculpture dealing with the great subjects of the Bible."

Born in Minneapolis, Minn., sixty years ago, Hardin graduated from Princeton in 1923 and entered the advertising business. Throughout the years he studied sculpture during his spare time and now devotes full time to it. He is a fellow of the National Sculpture Society, having served as its president 1957-1960. His work is represented in both public and private collections, and he has received numerous honors and awards.

Information concerning the Society of Medalists may be obtained from its headquarters at the Architectural League, 115 E. Fortieth St., New York, N. Y.

AUGUSTUS G. HEATON

Third President

By

JACK W. OGILVIE, LM 93, HISTORIAN

Augustus G. Heaton, Third President

It was a difficult undertaking, indeed, to step into the spot vacated by the beloved Dr. George F. Heath but that was the task assigned to Augustus George Heaton, architect, poet and artist who became third President of

A. G. Heaton

our organization in the summer of 1894. During the regimes of Jerrems and Heath the association had grown to over two hundred members, many of whom were prominent numismatists of that era. What about this architect who was to take the helm? Could he build as well as he could pen or paint with brush?

Augustus Heaton was born April 28, 1844 in Philadelphia, and began showing artistic talents at an early age. When nineteen he began the study of art in London, Paris and other cultural centers in western Europe. He returned to Philadelphia in 1865 where he taught and lectured. An early painting "The First Mission of Washington" was exhibited at the Centennial Exposition in 1876. His best known work, "The Recall of Columbus," was purchased by Congress to hang in the Senate wing of the Capitol. It was later reproduced on the 1893 Columbian Exposition 50¢ commemorative stamp (Scott 240). His "Hardships of Emigration" appeared on the 1898 Trans-Mississippi Exposition 10¢ stamp (Scott 290).

Whether the numismatists borrowed the talents of this great artist from the philatelists or vice versa is a moot question, for our third President was also an author and poet and his subjects were mostly numismatic in nature. Dr. Heath published one of these poems, "The Amorous Numismatist," in December, 1892. Due to the rarity of this number of *The Numismatist*, very few will ever know whether this particular numismatic Tony Curtis of the Columbian Exposition was in love with "Little Egypt" or the Isabella quarter — or both! Heaton became a regular contributor to the magazine thereafter, the subject matter covering many facets of our hobby. He also authored a book *Mint Marks* which was the first treatise on the coins of the U.S. branch mints. It initiated a growing interest in mint-marked coins which were also his collection specialty.

The A.N.A. continued to grow under the leadership of Heaton and two hundred and seventy-six persons had enrolled when he was reelected at the 1895 Washington, D. C. convention. Among these were such noteworthy people as: E. B. Stevens, Mrs. Frances Preston and Dr. E. P. Robinson, all of whom were sincere members for many years thereafter; Charles H. Deetz, noted cartographer; Virgil Brand, wealthy numismatic scholar; Dr. Geo. Massamore and Dr. George Hetrich, the latter a specialist in Civil War tokens. Also present day member Alfred B. Aubrey, a lad at the time, was among this group.

The President wrote an article "A Tour Among the Coin Dealers" which was published in the January, 1895 *Numismatist*. Starting in New York

City, he named: Ed Frossard; Lyman H. Low, manager of the Scott Stamp and Coin Co.; D. Proskey, manager of the New York Coin and Stamp Co. and J. W. Scott who ran his own business but previously had founded the company managed by Low. The next stop was Boston where he found William Von Bergen and H. E. Morey. In Philadelphia, Dr. Maris, the famous Chapman brothers and J. C. Randall held forth, while Charles Steigerwalt ran a mail order business in Lancaster, Pa. B. H. Collins was located in Washington, D. C.; Dr. Massamore in Baltimore; R. W. Mercer in Cincinnati and S. C. Stevens in Chicago. He failed to mention Luther B. Tuthill of North Carolina, W. F. Greany of San Francisco, George J. Bauer of Rochester and a few others who advertised regularly in the official magazine.

The year of 1896 was a national election year as well as for our organization. William Jennings Bryan, with his sixteen-to-one silver issue, grabbed the political spotlight. Everyone seemed to forget about the

Attending the A.N.A. convention in 1894 were, left to right, Dr. A. L. Fisher, Elkhart, Ind.; unidentified; Capt. Merriam, Port Huron, Mich.; John Walker (standing), Detroit; Fred Seymour, Detroit; unidentified; W. J. Luck, Adrian, Mich.; unidentified; C. C. Deuel, Detroit; Joseph Hooper; George W. Rice, Detroit; Howard R. Newcomb, Detroit; A. H. Griffith, Detroit; Dr. J. K. Lathrop. Others at the convention, although not in this photo, were Dr. George F. Heath, J. H. Valpey, Dr. D. R. Bogue, George W. Rode; J. R. Christopher and Albert B. Ragan.

A.N.A. needing a president. Disputes arose over the site of the convention city and the date it should be held. As a result, none was held.

New officers were never elected so the incumbents held over. The membership roll stopped at two hundred ninety-seven persons and seven applicants were not admitted. Interest reached a low ebb and despite all efforts of the three "H" boys, Heaton, Hooper and Heath, it seemed impossible to keep the association alive. Dr. Heath was forced to withdraw *The Numismatist* as the official publication in December, although he never gave up trying to salvage the organization. The retrogression of the A.N.A. continued through 1897 and until the fall of 1898. This was caused by the stringent times, the Spanish-American War and noninterest among the membership as well.

Finally a group headed by J. A. Heckelman, Chairman of the Board, succeeded in holding a mail ballot election. Heaton did not seek reelection and Dr. Heath received the majority of votes in a field of five. Heath declined and relinquished the top office to runnerup Joseph Hooper. The Ex-President continued in the official family, however, as a member of the Board, until 1901. Once again the Hooper to Heath to Heaton trio began to function and the A.N.A., off on its second start, was out of its lethargy.

The Numismatist again became the official organ with Heath and Hooper as Associate Editors.

Heaton continued to contribute articles and poems to the magazine for years. The last of these appeared in the June, 1923, issue, in which he revealed his activities after his long association with Heath. He became a member of the American Numismatic Society and upon moving to New York City in 1908, joined the New York Numismatic Club. Four years later he was elected third president of this club and upon reelection a medallion was struck in his honor.

In referring to his collection specialties, he mentions that he was once the proud possessor of all but one date of the three as well as the one dollar U. S. gold coins in choice condition. His artistic inclinations did not prompt him to shun monetary gain as he later sold these "at a handsome profit." His English collection consisted of silver coins of all the rulers. He was very proud of the fact that, through numismatics, while on a visit to England he became quite friendly with Admiral Battenberg, grandfather of Philip Mountbatten, the present Duke of Edinburgh.

In the later years of his life he turned more to the fraternal aspects of our avocation and attended an occasional A.N.A. convention. He retained Number 30 on the membership roster until he passed away, after a brief illness, October 11, 1930 at the age of eight-six.

Book Reviews

Coins of the Hapsburg Emperors and Related Issues 1619 to 1919, by Selwyn R. Mort, The Hawthorn Press, Melbourne, Australia, 1959, 179 pages, hard cover, three plates (map, coats of arms, mintmarks), \$4.50. Jacques Schulman, Keizersgracht 448, Amsterdam C, distributor for Europe and the Americas.

This book, a carefully planned and well written contribution to the numismatic literature of the English-speaking world, is the work of an Australian "old-timer" with a young, active mind. It should prove indispensable to anyone collecting Central European coins who does not possess a good reading knowledge of German, and the Aichholz, Cejnek and Jaeckel catalogs which Mr. Mort effectively summarizes here.

More than a hundred pages are devoted to a complete check list of known types of Hapsburg coins struck during 300 years for Austria, Hungary, Bohemia, Syria, Tyrol, etc. The rest of the volume is given over to well organized notes, glossary, lists and tables, providing the histories of rulers and provinces, detailed information concerning mints, mintmarks, denominations, weights, fineness, legends, and other relevant materials required to identify the coins appearing in the check list.

Aside from certain few typographical errors, the work has only one defect — no coins are illustrated. However, this omission does not interfere with the usefulness of the volume, and as the author points out, the cost of illustrations would have been prohibitive. — WILLIAM D. CRAIG

A Description of Late Roman Imperial Coins (350-478 A.D.) and the Becker Forgeries of This Period by F. J. Windler, Jr., 3736 Whitland Ave., Nashville, Tenn., 57 pp., mimeo, 1960.

This is a mimeographed pamphlet of fifty-seven pages. The author in a very modest preface tells us that, after thirty years of collecting, he was aware of the extreme difficulty of getting access to respectable works on ancient coins in public libraries in any save great cities, and the impossibility of buying them at a moderate price.

Hence, he has compiled from Cohen's great work — the second edition was much revised by Feuardent — and some other sources a compact

book. He gives brief biographies of the emperors (Augusti) and other imperial persons for whom coins were made, and a list of the known varieties.

The period that followed on the immediate family of Constantine to the fall of Rome was chosen because it is the least well known. It is hoped in later volumes that earlier periods may be treated.

The listing of the coins is like that of Cohen, by alphabetical arrangement of reverse legends. This will, of course, raise eyebrows among some of the professed scholars, and delight the hearts of those who collect coins. It is the recent fashion to classify Roman coins by mints, then by dates, and last by reverse legends. Now that might be desirable, were dates and mints matters of certainty on all occasions.

They are not, however, and it seems to the writer that classification should be by what is to be read on the coins themselves, rather than by a system based largely on knowledge, but also to a great degree on conjectures of scholars by varying shrewdness. The arrangement of coins in the British Museum was originated a century ago by Count de Salis, who presented his magnificent collection to it; and it has been modified by later members of the Museum staff, and others. For a small collection it is unworkable, for a moderate one, confusing. For a catalog it is forbidding — ask anyone who ever looked up a coin in Cohen, in a few seconds, or tried to look one up (by index!), in a British Museum catalog. Further, a mint is not always significant — some Italian coppers of Victor Emanuel II were made in Birmingham, Paris.

Mr. Windler gives estimates of current values, which seem reliable, and based on knowledge of the market. No estimates are given on very rare coins. There are a good many rulers in the chosen period so rare that specimens have not been publicly sold in recent years.

The author hopes his inaccuracies will be overlooked as honest mistakes, and the present reviewer finds little to which he can object. He uses the word medals for large coins, following foreign writers — in the period chosen all the pieces were money, and the denominations may be worked out for the gold and silver by weight. B. A. Seaby has done this for a few of them. The estimate of value of at least the rare pieces of Vetrano is probably too high; there is reason to think a find was made in the present century which came on the market. Nevertheless, Mr. Windler's book is a fine one. — T. O. MABBOTT

CALL FOR ANNUAL CONVENTION

The annual convention of the American Numismatic Association will be held on August 16-19, 1961, at the Biltmore Hotel in Atlanta, Ga. All members of the Association are invited to attend and participate in the business, educational and social affairs of the convention. Visitors are also cordially invited.

Enthusiastic local committees are perfecting plans for a memorable convention. Of special interest to our newly admitted members, as well as to our veteran convention-goers, will be the dealers bourse, the fascinating exhibits by our members, the Educational Program and the banquet. In addition this convention offers an unusual adventure — a trip to the site of the historic mint at Dahlonega, Georgia.

Bring your family and let the officers know if you are attending your first convention.

In the midst of redevelopment, you will find us with fine new buildings, and others in all stages of erection. Our "convention package" will suggest things to see and do, if you have time to spare from the convention floor.

For this we have taken the entire mezzanine of the Nicollet Hotel, providing bourse space for nearly a hundred dealers. The large, well lighted Walnut room for exhibits. Special rooms are also set aside as ladies lounge, members lounge, dealers lounge, meeting rooms and headquarters for the ANA, CSNS and other organizations.

Special attention has been paid to security. The security room will be in the charge of Pinkerton guards on the mezzanine. This will be available to early arrivals from 4 p.m. Wednesday through the forenoon of Monday, May 1.

CSNS bylaws require that all competitive exhibitors and all bourse dealers be members of the society. Since business firms are not eligible for membership, that requirement can be met by the firm's individual members joining. Dues are \$2.00. For further information and application blanks, write to the convention's General Chairman Paul E. Olson, 2538 Taylor St., N. E., Minneapolis 18. Co-Chairmen are Albert R. Koza, Arnold Holmberg, Jay D. Swift.

Exhibits Chairman is Gerhard Knudson, 5232 Beard Ave., So., Minneapolis 10. The Bourse Chairman at the convention will be F. Berrisford Horn. Bourse tables, including registration, banquet ticket, one case,

name card and special dealer's badge for a single individual only, are \$60.00 each. Each additional registration is \$2.00 and an added banquet ticket is \$6.00, the same as the registration fee and banquet for nondealer members attending.

Pick-Nicollet Hotel in Minneapolis

Exhibits will be governed by CSNS rules, with the following changes: 1, U. S. coins except all gold; 2, coins prior to 1500; 3, foreign coins except all gold; 4, paper money, all kinds, all countries; 5, medals, medallion art, orders and decorations; 6, specialized, mint errors, misprints, odd, curious, topical, educational, historical, fanciful; 7, all gold, U. S. or foreign.

Exhibitors are welcome to bring and use their own cases. Those who cannot stay the full three days and compete for prizes, will be given an opportunity to show their treasures. The official point system of judging which equalizes chances between the educational exhibit, and the one featuring rarity and value, will be used.

Numismatists and collectors, exhibitors and dealers, we welcome you all. Together we will make this a memorable convention. — NORTHWEST COIN CLUB

Counterstamped Coins of Mozambique

By

HOWARD D. GIBBS, A.N.A. No. 1949, FRNS

NO OTHER nation has used counterstamps as prolifically as Portugal. Not only were many coins counterstamped to change the values, either upwards or downwards, but they were used to validate circulation in the many Portuguese colonies and islands. Coins were so counterstamped for use in the Azores, Mozambique, Lorenzo Marquez, Macao, Goa, Ceylon, Malacca, Angola and Brazil. The purpose of this paper is to cover the coins counterstamped for use in Mozambique.

MARIA II (1834-53)

Small oblong gold and silver bars were issued *circa* 1843-45. The gold were one and a quarter and two and a half macuta and are found with and without counterstamps (Figs. 1 to 6). The silver bars, dated 1843 and 1845, also come with the rosette counterstamp. Value one onca. (Figs. 7 to 9.)

PETER V (1853-61)

In 1854 many coins were counterstamped with a small crown to authorize their circulation. We have seen small silver of Porto, two and three silver pence of England, pesetas of Spain, silver coins of Portuguese Africa (Angola) and copper coins of Brazil, St. Thomas and Princes Island and others (see Fig. 10). Several of these coins also bear the additional counterstamp of Trinidad (lattice) and Azores (G. P. crowned).

LOUIS I (1861-90)

During 1865-67 coins of many countries in copper and silver were counterstamped with a deep "MR" (conjoined) for circulation. The correct location of this stamp was a mystery for many years. Catalogers attributed this counterstamp to "NR" (Nueva Reina, Santa Fe de Bogota, Colombia), Nicaragua, "MR" for Mexico and also Morelos (Mexican Revolution 1811-14), "MR" for Manila Resellados.

J. M. Folgasa, however, of Lorenzo Marquez in two articles completely documents these counterstamps to Mozambique. While most of the counterstamps seen are very deep conjoined "MR" there seems to have been several dies including varieties where the stamp is not so deeply imprinted. (See Figs. 11 and 12.) We have these on many dates of the Mexican pillar type eight reals, Spanish eight reals, Morocco metzcal, French ecu, Austrian taler. An early eight reals cob of Lima, Peru, dated 1685, has additional counterstamps of "480" crowned and "600" crowned. Smaller silver coins include pieces from half real to four reals silver. This stamp has been observed on copper coins of early Portugal, Angola, Brazil and Spain.

In 1871 coins were counterstamped with a large crown (Fig. 13). We have seen this stamp on small to dollar size coins of Brazil, small silver of Angola. An unusual multiple counterstamp is noted on an 1808 five francs of Lucca and Piombena. In addition to the large crown for Mo-

Howard D. Gibbs, Pittsburgh, Pa., has been a member of the American Numismatic Association for nearly forty-five years, during which period he has written many articles for *The Numismatist* and other publications.

zambique this piece has the crowned shield authorizing circulation in Portugal.

In 1888 a new counterstamp was adopted. This consisted of the letters "PM" under a crown in a circular stamp (Figs. 14 and 15). This stamp is noted on dollar size coins of Austria, France and Mexico, also on silver coins from quarter rupee size to rupee. It is found on coins of India, German East Africa, Portuguese India, England and others. No copper coins have been noted.

CHARLES I (1889-1908)

In 1895 coins were also counterstamped with large and small letters "PM" but without the crown above (Fig. 16). This stamp has been seen on coins similar to those described above.

A counterstamp which, as far as we know, has never been published is the letters "LM" under a crown, probably for Lorenzo Marquez. This is on a taler of Maria Theresa 1780 (Fig. 17).

Indiana Convention Commemorates Civil War

The Evansville Coin Club has designed and is having struck a commemorative medal of the Civil War for the third annual convention of the Indiana State Numismatic Association.

tion conducted by Peter B. Payne of San Bernardino, Cal. each of the three days. Among the outstanding exhibits already obtained for this event are the beautiful gold coin col-

Obverse and reverse of the commemorative medal

ciation, to be held May 19-21 in Evansville, Ind. The medal's reverse stresses the convention theme, the Civil War Centennial Year; an annotation of the convention encircles the Evansville Museum of Arts and Sciences, in the center, on the obverse. The medal will be available in two-tone bronze at \$1.00, in sterling (only 250) at \$7.50, and in gold (only fifteen) at \$75.00. Remittance should be sent with an order to the Evansville Coin Club, 1351 Washington Ave., Evansville, Ind.

All functions of the convention, except some special activities for the ladies, will be held in the Hotel Vendome. There will be an auction ses-

lection of Irving M. Moskovitz of Detroit, and a display from the Northern Trust Company of Chicago. There will be other superior private collections, some being displayed for the first time. A special award has been provided for the finest display commemorating the Centennial of the Civil War, as well as other awards to be announced later.

Rules and applications for exhibiting may be obtained from John M. Schroeder, Crescent Plastics, Inc., 955 Diamond Ave., Evansville 7. For other information about this convention, contact Dr. C. F. Leich, President of Evansville Coin Club, 124 S. E. First St., Evansville 8 (Telephone HARRISON 3-6434).

RECENT RULING ON FOREIGN GOLD COINS

For some time there has been a question in the minds of gold coin collectors as to which foreign gold coins minted subsequent to April 5, 1933, are presumed by the U. S. Treasury Department to have a numismatic value and are legal to possess and those which are presumed not to be of numismatic value and are illegal to possess.

We have read advertisements in all of the trade journals offering foreign gold coins of recent date. Since this practice is so common and includes almost all of the large dealers who should be well informed, I assumed that foreign gold coins of recent mintage were legal to possess for numismatic purposes.

Living close to the Mexican border I was in a good position to acquire some very nice Mexican gold coins and during the first half of 1960, advertised some of these coins for sale and sold some. In August, 1960, a U. S. Treasury agent called on me with orders to seize all Mexican gold coins minted after 1933. I was very surprised at this action and so confident that it was a mistake that I persuaded the agent to let me write the Director of the Mint for more

information. My letter to W. H. Brett listed all Mexican coins I knew to have been struck since 1933 and included the following regular issues: 1945 two pesos, 1945 two and one-half pesos, 1955 five pesos, 1959 ten pesos, 1959 twenty pesos, 1943, '44, '45, '46, '47 fifty pesos as well as the following commemorative coins: 1953 ten and twenty pesos Hidalgo, 1957 ten pesos Juarez and the 1959 twenty pesos-size Carranza medal in proof. I also asked for a ruling on recent restrikes of foreign coins dated prior to 1933 such as the restrikes of the 1915 Austrian coin so common in the market.

In reply to my inquiry, the Director of the Mint wrote as follows under date of November 23, 1960:

Dear Mr. Mann:

Further reference is made to your letter of October 7th, concerning Mexican gold coins which you have or have had.

The only coin on the list given by you which can be considered as a rare gold coin within the meaning of the gold regulations, is the 20 pesos dated 1959. Accordingly, none of the others may be imported into the United States.

The determination as to whether gold coins manufactured abroad are of true numismatic value is a factual one made by the Director of the Mint with reference to the Curator of Numismatics at the United States National Museum, the governmental authority on the subject. This determination is made on the basis of all the facts, including the number made and the purpose of the issue. It has been found that the number of gold coins produced in Mexico since 1933 have been generally so large that the issues can not be considered to be rare within the meaning of the gold regulations. For this reason, all Mexican gold coins, with certain specific exceptions, made since 1933 are now denied entry into the United States unless offered for sale to the government or for re-export to Mexico. However, since for some time there was a misunderstanding as to the character of the coins being issued by the Mexican government and many were permitted entry in the belief that, as commemoratives, they met the requirements of section 54.20 of the Gold Regulations, it has been decided that no action will be taken in regard to those which were in the United States on May 5, 1960, the date of the order to the Collectors of Customs prohibiting further importations.

Since it appears that none of the coins which you have were imported after that date no further action need be taken. However, you are cautioned that you should, in the future, protect yourself by obtaining evidence that any Mexican gold coins you purchase were actually imported into the United States prior to May 5, 1960.

Restrikes of foreign gold coins are refused entry. No coins of the dates of which restrikes are being made are admitted unless the customs authorities are satisfied that they are the original issue. In general, it is suggested that you purchase no coins unless they are accompanied by evidence that they were legally imported.

Very truly yours,

Signed, W. H. BRETT
Director of the Mint

I hope the above information will be of value to my fellow collectors. —

SURVEY OF MEDIEVAL IBERIAN COINAGES

By

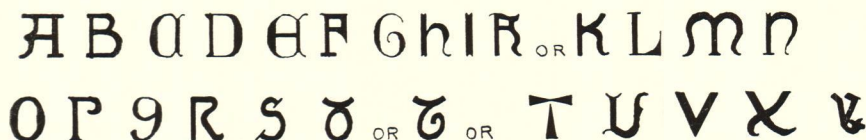

J. F. LHOTKA, LM 334 AND P. K. ANDERSON, LM 210

Continued from February, 1961

THE MEDIEVAL ALPHABET

The letter forms on the coins struck during the medieval period are not necessarily more complicated than those used today but under certain circumstances they can be confusing. The medieval love of the ornate is nowhere more clearly illustrated than in the intricate letters produced by the mint engravers to form the various legends. These letters are characterized by elaborate rendering of the serif, distortions of the bowl, and curving of

with A is that the cross-bar may be omitted and the letter be mistaken for an inverted V. When these variations in letter form are combined with such other medieval idiosyncrasies as occasionally using a horizontal letter S in a legend in which all other letters are vertical or placing two letters in ligation, the possibility of error is obvious. Happily, in practice it is usually rather easy to decipher the complete legend since the content, which follows a fairly specific sequence, assists in

Medieval alphabet

the stalk, resulting in a fairly complicated completed shape. However, in spite of these variations, when these letters are stripped of their camouflage, they are basically identical to those still in use. Certain letters are routinely found in their "Lombardic" form on Iberian medieval coins, these being H, N, and M.

The principal difficulty that results from this type is that on a poorly struck or worn coin, the H may easily be mistaken for the N.

The other letters follow the Latin type more strictly and there should be no trouble in deciphering the letters I, L, P, S, T, U, V, O, and X although the unusual Spanish T that resembles a letter O with a cross-bar at the top may cause difficulties at times. The troublesome letters are A, B, C, D, E, G, K, R, and sometimes Q, since the extreme serifs often close areas and allow these to resemble each other. Thus, B may resemble E, C will be similar to D or G, and K and R may be almost impossible to differentiate on form alone. The main source of trouble

clarifying the more difficult letters. A collector who makes any effort toward understanding the medieval letter form will be able to read coin legends quickly and accurately with the same ease that he reads the simple modern types.

A representative alphabet using all of the major letter forms found on the medieval Iberian coins is illustrated. Careful study of this series of letters will demonstrate clearly the various types that will be encountered on these Spanish and Portuguese coins. If the ornate camouflage is removed from these letters, it is obvious that they do not differ to any real extent from their modern counterparts.

LEGEND FORM

Medieval coin legends, especially the obverse ones, follow a fairly consistent pattern on all of the coins of western Europe. The coins struck by the Iberian countries are no exception. The legend is usually preceded by an initial mark, generally in Spain and Portugal in the form

of a cross, although the early issues often lack this mark. The name of the king, in its Latin form, constitutes the first word. Rarely is the king's number in the royal sequence given although at times it was included, as on the coins of Henry IV of Castile and Leon. Following the king's name will generally be some form of the Latin "Dei Gratia" or "By the Grace of God." This may be spelled out completely in its Spanish style as *DEI GRACIA* or abbreviated, sometimes simply *D.G.* The king's formal Latin title of *REX* is next in the sequence, but sometimes it is abbreviated. The final word or words in the obverse legend, and sometimes actually continued in the reverse legend, will be the name of the country concerned. The names may be spelled out in full or abbreviated in various ways. Generally on the larger coins, the legend will be more complete while on minor issues, abbreviations are common.

The general forms for the various Iberian countries proper are : Leon — *LEONIS* ; Castile — *CASTELLE* (however, on the early issues the name of the city of Toledo rather than the national name was used to designate the source of the coin and was usually placed on the reverse); Castile and Leon — *CASTELLE ET LEGIONIS* (this was abbreviated in many ways and frequently portions of it were placed on the reverse); Navarre — *NAVARA*, initially and later *NAVARRE* ; Portugal — *PORTVGAL* (after the conquest of the southern regions called the Algarve, the kings usually included reference to their new territories in their title using *ALGARB* or variation in the sequence, usually on the reverse); Aragon — *ARAGON* on early issues and *ARAGNUM* (the letter U was used in place of the typical medieval V toward the end of the medieval period).

The coins struck by the kings of Aragon for their various wide spread dependencies differ depending of the source. The coins struck for Barcelona are distinctive and retained their individuality throughout the entire medieval era. Usually the king's name, *D.G.* and *REX* occupied the obverse with his bust facing the left as the type while the re-

verse had the typical long cross with alternating annulets and three pellets in the angles and the legend *CIVITAS BARKNONA* or *BARCINONA*. Frequently the word "Aragon" did not appear in any way in the Barcelona legends. However, on the other coins struck in territories controlled by Aragon, some reference to the homeland was usually included and then mention was made of the actual territory in which the coin was struck. The word *sicil* was used to indicate the Sicilian issues, *MAIOR CARVM* for Majorca, *VALENCIE* for Valencia, all in many variations depending on circumstances. The kings who ruled these dependencies in their own name, of course, did not include reference to Aragon although the Aragonese "bar" might be used as a type. The coins struck for southern Italy by the Aragonese rulers, especially Alfonso V of Aragon, contain rather complicated legends and adequate descriptive material is included in the text.

The coins issued by lesser or non-Spanish authorities, such as the Bishops of Urgel, the independent Counts of Barcelona, Counts of Ampurias, and the issues of the Carolingian Spanish Marches used appropriate legends including the title *COMES* for count (found on coins of Urgal, Barcelona, Ampurias, Roussillon) and *REX FR* for the French rulers. Basically, the legends of the lesser nobility follows that of the Iberian kings in that first there will be the name of the feudal baron, then his title in Latin (the *D.G.* is omitted), and finally the name of his province, sometimes carried over to the reverse. The early Carolingian coins struck for Catalonia are quite distinctive since they possess the Carolingian monogram as a type; although they do not necessarily follow this pattern, they are easily recognized.

All proper names on medieval coins in this series are given in Latin. Thus we have: John — *IOHANES*, James — *IACOBVS*, Alfonso — *ANFVS* (early form) or *ALFONSVS*, Peter — *PETRVS*, Sancho — *SANCIVS* or *SANCHI*, Henry — *ENRICVS* or *HENRICVS*, Ferdinand — *FERNANDVS* or *FERNANDVS*, Karolvs for Charles, MAR-

TINVS for Martin, DIONIS for Denis, HLVDVVICVS for Louis, FREDERICVS or FRIDERICVS for Frederick. The names of queens are also given in Latin, and MARIA, BLANCA (usually abbreviated simply as B), and VRRACA are found on certain coins. The authors, to simplify this paper, also adopted the common English equivalents for the Spanish and Portuguese names when they are mentioned in the text. Consequently, Peter is used rather than Pedro, Edward rather than Duarte, John in place of Juan or Joao, and James in place of Jaime. The other common names of the period are primarily of Iberian origin and the form most popular in this country is used and in most cases has the Spanish rather than the Portuguese base, so Alfonso is used in place of Afonso. Most other names are self explanatory.

The reverse legends on these coins are essentially simple. Often they are merely a continuation of the obverse legend with the king's name and title on the obverse and the name of the country concerned on the reverse. In the later periods when larger and more elaborate coins were issued, such as the real, the various Iberian kings on occasion copied the French type which incorporated a pious saying as the reverse legend, usually of the "Lord Help" variety. This inscription usually was presented in two circular lines. An example is the reverse of a real de plata of Peter the Cruel of Castile and Leon: the exterior legend read DOMINVS: MICH: ADIVTOR: ET EGO: DI: while the interior one followed with SPICIAM: INIMICOS: MEOS:, both surrounding a crowned letter P.

MEDIEVAL IBERIAN COIN TYPES

One of the principal reasons that medieval Iberian coins are essen-

tially simple to understand in contrast with the issues of other nations is that the types used by the various kings on their coins are fundamental and, within any particular confine, run true to form. Details of these types have been discussed in the section on Iberian heraldry but a few additional notes might be of value.

Castile and Leon

The types used on the coins of Castile and Aragon are probably the simplest of the series to identify. Almost without any exceptions the castle and lions were used on this nation's coins throughout the entire medieval era. During the "separation of the crowns," Castile used the castle alone and Leon retained its lion. There is no real problem in attributing most coins in this series. Only on the earliest issues are these symbols of nationality missing and replaced by crosses.

Another point of interest is that except for a few of the first dineros (Urraca, Alfonso of Aragon, Alfonso VII, Ferdinand II of Leon, Alfonso VIII, Sancho III, Alfonso IX) the busts practically always face to the left. This bust left is almost characteristic of the medieval Spanish series since it is found on both Castilian and Aragonese coins. Even certain of the rulers noted struck bust left obverses as well as facing or bust right types.

Mint marks are found on these coins early and were generally placed below the castle but the exact location did vary from time to time. Prior to the use of mint marks, the name of the mint city was frequently spelled out in full as the reverse legend. In the later period, the quartered arms of Castile and Leon are a routine reverse when the king's bust was an obverse type.

To Be Continued

The dwelling shown on the reverse of the Grant half dollar has been wrongly described as "a log cabin" until recently when attention was drawn to the fact that it actually is a frame dwelling in which the Union general was born.

CALL FOR NOMINATION OF OFFICERS

The election of officers in the A.N.A. is held every two years. This is an election year. The offices of President, First Vice President, Second Vice President, General Secretary, Treasurer, and a Board of five Governors are the elective offices. Nominations of properly qualified candidates may be made by any member in good standing and should be sent to the office of the General Secretary. Nominations will close on June 15, 1961.

To facilitate the tabulation of the ballots and avoid the necessity of a large election committee at the convention, the Executive Board has directed that the tabulation be done this year by Arthur Young & Co., certified public accountants, who also conduct the annual audit of the books of the officers. Ballots will be mailed directly to that firm in envelopes provided each member. Ballots must be received by August 1. None may be delivered at the convention.

The Executive Board has directed that names of candidates be published in *The Numismatist*. Candidates will be advised of all nominations but names of nominators will not be published.

This is *your* Association. It belongs to each of you. It is my hope that each member of our Association will take a keen and active interest in the nomination and election of those who will guide the destinies of the A.N.A. during the next two years.

⁴A fraudulent note is one which is not known to exist in genuine form, and names a nonexistent bank. A spurious note is similar except that it names a bank which did exist. Counterfeit notes are close imitations of genuine notes, while altered notes are genuine but have had the bank name and/or location changed. There were many fake banknotes of one type or another and many are in collectors' hands today. It is difficult for the novice (and sometimes for the experienced collector) to detect and classify these notes, and no attempt has been made in this article to point out all of those of Indiana.

⁵⁴The *Cincinnati Gazette* detailed the successful attempt of a couple of sharpers, . . . to flood the South with broken bank money, consisting of \$1, \$2 and \$5 bills on the Clifton Bank (Canada), also \$5 and \$10 notes of the American Bank, Dover Hill, Indiana. When they found themselves unable to obtain any more cotton with it, they commenced purchasing Southern money; made contracts with the wagon-masters for distribution of their bogus money . . . General Mitchell finally had them arrested." *Bankers Magazine*, August, 1862.

Seventieth Annual A.N.A. Convention

EXHIBITS — HOTEL — BOURSE

Visitors to the seventieth annual convention of the American Numismatic Association to be held at the Atlanta Biltmore Hotel in Atlanta, Ga., August 16 to 19, will have the privilege of seeing an exhibit of Confederate currency never before displayed. We are advised that this is the most complete arrangement ever attempted.

Exhibit space has already been reserved for some of the finest collections in America. These will be on display for your pleasure, but we want Mr. (and Mrs.) Average A.N.A. Member to show us his collection. This is your convention and we want your prize pieces on display. They do

Stone Mountain (Atlanta Convention Bureau photo)

not have to be great rarities. The backbone of our Association is made up of thousands of small and medium collections which we would welcome for exhibition. You are justly proud of your collection — let others see what you have! Adequate police and insurance protection will cover all displays. Philip S. Reed, Exhibits Chairman, P. O. Box 234, Atlanta 1, Ga., will be glad to furnish information and reserve cases for your exhibits.

Comfortable, air-conditioned hotel accommodations await your arrival. We suggest you make your hotel reservations early and direct to the Atlanta Biltmore Hotel. Do not fail to mention that you are attending the 1961 A.N.A. convention. Jackson Bennett is in charge of hotel arrangements and will be glad to assist you.

Robert J. Rooks, Bourse Chairman, says it looks like an early sellout of bourse space. No reservations will be accepted after bourse space is filled.

Also available during the convention will be tours of Stone Mountain,

the Cyclorama (Battle of Atlanta), Atlanta's famous residential areas, Uncle Remus' Wren's Nest (home of Joel Chandler Harris), and the Dahlonega gold fields (You can pan your own gold!).

Plan now to come! Bring the whole family for vacation time in the heart of the South! But make your plans early, says George M. Todd, General Chairman.

All committee chairmen can be reached at the convention mail address: P. O. Box 234, Atlanta 1, Ga. Write us! Let us help you with your plans. Many tours and other entertainments are being arranged for your pleasure.

SELECTING A.N.A. OFFICERS

President O. H. Dodson has opened the way for nominations of A.N.A. officers and governors for the two-year terms ending in 1963. You will find his official call, stating that nominations may be made until June 15, 1961, in this number of *The Numismatist*. We will report on nominees in the May, June and July issues with brief biographical sketches of all candidates in the July number.

The important and critical problems which face us in this booming period of our hobby must be met by the best minds we can secure. All nominators are urged to give careful thought to their nominees on whom will fall the burden of guiding the Association through the next two years. Choose men qualified by experience, by temperament, by character and by learning to give you the top in leadership. All offices are important. Fill them with the best men you can find. — EGB

NOTES FROM THE LIBRARIAN

Spring cleaning time will soon be here. Don't throw away those old *Numismatists* or *Scrapbooks*. We need them. Our supply is getting low. Profit from the sale of these magazines go into our library fund to purchase new books and duplicates of popular editions. Send them today.

B-13 Becker, T. W. *The Puffin Coins of Lundy*. 1960. Reprinted from the *Scrapbook*, this book is written with a numismatic approach to establish the term "coin" and not "token" to the Puffin Island pieces. Considerable research has gone into this book in an effort to get to as many of the basic facts as possible surrounding the coins and to arrange these facts in a meaningful order.

Notes & Queries

Smithsonian to Open Monetary History Exhibit

The Smithsonian Institution's new exhibit of Monetary History will open on Saturday afternoon, March 18, 1961, at 3 o'clock in the Arts and Industries Building, Jefferson Drive and Ninth Street, on the Mall, Washington, D. C. Numismatists are invited to attend, according to Dr. V. Clain-Stefanelli, Curator of Numismatics, Smithsonian Institution.

The Hall of Monetary History and Medallion Art illustrates the major lines of the development of money economy from the beginning of primitive barter to the establishment of our modern monetary systems. This is an entirely new approach in numismatic exhibition in that the exhibits have been arranged to show the evolution of money within the sequence of the most significant historical events and as an integral part of the cultural development of human society. Special emphasis has been given to the development of the various forms of currencies in North America and their role in the economic and political growth of the United States. The Hall also features the world's largest collection of gold coins on public display, that of the late Paul A. Straub, as well as the renowned United States Mint collection, and selections from the Willis H. du Pont collection of Russian Coins and Medals.

Youngstown, Ohio Hobby Show

During the period of March 17-19, in the Hotel Pick-Ohio, Youngstown, Ohio, a hobby show including coins and stamps will be held. Auctioneer is Homer M. Swanson. Admission is free. For further details, get in touch with Morris J. and Ruth Hammell, 211 N. Phelps, Youngstown.

Plastic Coins?

The Comptroller of the British Royal Mint, J. H. James, in his latest report to the Treasury thinks the introduction of plastic coinage deserves serious consideration. If the modern feeling is that coins should merely exist and be convenient, a plastic token is the answer. He would suggest that high denominations only be in silver alloys (or paper notes) and the lower values in plastic. To stop possible counterfeiting, a radioactive isotope could be incorporated in

the plastic so Geiger counters could quickly reject the phonies. (From a story in the January, 1961, *Burroughs Clearing House*)

OMSA Seeking New Members

The Orders and Medals Society of America is an established group of enthusiasts who collect these awards. Nonmembers are most cordially invited to affiliate. *The Medal Collector* is the Society's official publication and a copy of it along with an application blank may be obtained by writing the Secretary, Miss Lottie Crawford, P. O. Box 772, San Diego 12, Cal. Interested dealers may also have a small supply of copies of the magazine and application blanks to distribute to prospective members. President of OMSA is Dr. A. F. Goodwin, 31 Kingsboro Ave., Gloversville, N. Y.

Cal-Harbor Club Issues Medal

To commemorate its first fall festival, the Cal-Harbor Stamp and Coin Club struck a medal in October, 1960.

Designed by Robert Gramberg, the medal is silver dollar size. Medals may be obtained from Richard Peterson, 12906 S. Union Ave., Chicago 28, Ill., for \$1.00 each.

Big Demand for Inaugural Charm Bracelet Medal

The bronze charm bracelet inaugural medal, bearing profiles of President John F. Kennedy and Vice President Lyndon Johnson, is in great demand. These pieces, the size of a quarter, were given to guests attending the inaugural balls. Inaugural headquarters say that for the time being only holders of unused inaugural tickets may obtain the charms. The committee has made no decision on whether to offer any remainder for sale later, according to Rep. John C. Kluczynski (D., Ill.) in a *Chicago Tribune* story of January 25.

Medal and Token Society Organized

For some years collectors of medals, tokens and obsolete paper money have met informally. An organizational meeting was held November 19, 1960, at the Michigan State Numismatic Convention in Detroit. Those attending included James Curto, Lucy Kelly, Q. David Bowers, Clifford Mishler, Harry Lessin, Joseph Lucas, Earl Fankhauser, Charles N. Ricard, George D. Hatie, Thomas W. Fruit, Walter Hinkle, Jr., Ruth Hammel, and Henry Spankelberger. Provisional status was assumed with permanency of organization becoming effective on incorporation. It was decided to keep the roster open for charter membership until March 31, 1961. Aims of the Society were outlined as follows:

To promote the study of tokens and medals; to cultivate fraternal relations; to encourage research, articles and recordings of such materials; to disperse information and knowledge; to advance interest and prestige; to promote meetings at conventions; to encourage distinct classifications of exhibits; to endeavor to determine values.

The following were chosen to represent the Society of Medal, Token and Obsolete Paper Money Collectors:

President: Dr. George Fuld
First Vice Pres.: James J. Curto
Second Vice Pres.: Max M. Schwartz
Secretary and Treasurer: Mrs. Lucy A. Kelly
Curator-Historian: Clifford Mishler
Board of Governors: Art Kagin, Paul Hamm, John Ford, Harley L. Freeman, Paul M. Fouts, Melvin Fuld
Editor: Dr. George J. Fuld. Assistant Editors: E. Ward Russell,

Russell Rulau, Ralph Mitchell, Nathan Eglit, Eric P. Newman, Fred R. Marckhoff, Legal Counsel: Ellis Edlowitz, Harry Lessin

Affiliation as a corporate member with the A.N.A. was recommended. Initiation fee of \$1.00 and annual dues of \$2.00 was established, with applications to be forwarded to the Secretary, Lucy A. Kelly, 3410 Ford, McKeesport, Pa. A quarterly bulletin devoted to the objectives of collectors of medals, tokens, and obsolete currency of colonial and modern America will be published. Articles or manuscripts should be forwarded to Editor Fuld, Box 6047, Baltimore, Md.

Kansas Medal Restricted To State's Residents

The twenty thousand silver medals authorized for the Centennial of the State of Kansas by the last Congress have been struck and distributed through an elaborate system designed to make the medal available to residents only. The Philadelphia Mint made these commemorative pieces which the private Centennial Commission sold at \$2.50 each. Although this was termed a "national medal" in the Congressional act, numismatists living in the other forty-nine states had no chance to obtain a specimen because of the small minting.

In Congress

A bill to authorize the coinage of twenty-five thousand half dollars to commemorate pioneer lumbermen was introduced in the House of Representatives (H.R. 2221) on January 9 by Congressman Cederberg. The bill has been referred to the Committee on Banking and Currency. (A similar bill failed of passage in the Eighty-sixth Congress.) The Tawas City, Mich., Kiwanis Club is seeking this legislation.

New Coin Shop

Charter Oak Coin Corporation recently opened a shop in the Wethersfield Shopping Center, Wethersfield, Conn. Both Howard A. Davis, Vice President and General Manager, and

Dwight B. Roy, Jr., President of the firm, are active in numismatic organizations. Davis is Executive Secretary of the New England Numismatic Assn.; Roy is Vice President of the Hartford Numismatic Society, and President of the Meriden Coin Club. The colonial interior of the shop, and ample space for study and browsing provide a pleasant atmosphere in which to buy, sell, or have coins and coin collections appraised.

The New England Numismatic Association convention is scheduled for October 14-15, Hotel Sheraton-Kimball, Springfield, Mass. Convention Chairman is Henry Berub. For details, write Howard E. Davis, Sr., NENA Executive Secretary, 53 Scott St., East Hartford, Conn.

Essay-Proof Society Names Dr. Blanchard President

Julian Blanchard of New York has been elected president of the Essay-Proof Society, succeeding Henry Gates. Elected also were Thomas F. Morris, first vice president; Joseph G. Reinis, second vice president; Kenneth Minuse, secretary; Mrs. Rae D. Ehrenberg, treasurer.

Dr. Blanchard was one of the earliest members of The Essay-Proof Society, which is in its eighteenth year. He was long associated with the late Dr. Clarence W. Brazier, founder of the Society, in the preparation of material for its famed *Essay-Proof Journal*, of which Dr. Brazier was the first editor. Dr. Blanchard succeeded Dr. Brazier as editor in 1951 when the latter's health began to fail, and has held several other offices in the Society. Recently a number of his friends feted him on his seventy-fifth birthday with a dinner and gift.

Elected to the Board of Directors of the Society, Class of 1963, were Sol Altmann, Reinis, Minuse and Mrs. Ethel B. McCoy. David Lidman, present Editor of the Society's quarterly, was appointed to the board to succeed Gates, who resigned.

At the recent annual convention of the Society, plans were formulated for expanding the work of the society, both in the fields of essays and proofs and in the historical background of stamps and paper money. Data on the Essay-Proof Society may be obtained from the Secretary, Kenneth Minuse, 1236 Grand Concourse, New York 56, N. Y.

Evanson Opens New Coin Office in Springfield, Mass.

On January 16, a new stamp and coin office was opened in Springfield, Mass., at 115 State Street, Room 210. It is owned and managed by Henry Evanson, who has been in the stamp and coin business for thirty-three years. Evanson's A.N.A. number is 4001, an "old timer." Free price lists will be available to our readers if they will write for them to the Spruceland Stamp & Coin Co., at the above address, mentioning *The Numismatist*.

Michigan Staters To Meet in Muskegon

Plans for the spring convention of the Michigan State Numismatic Society were formulated at the home of William Marquand, President of the Muskegon Coin Club on January 27. This convention will be one of the first major conventions of the spring sea-

son. It will be held in Muskegon, Mich., at the Occidental Hotel on April 7, 8 and 9, the first weekend following Easter. General Chairman is P. H. (Jim) Frans, P. O. Box 909, Holland, Mich.

The committee has decided not to hold the customary Saturday evening banquet. From past experience it has been found the dealers do not wish to close their bourse tables for the affair. There will be instead a dealers buffet luncheon immediately following the closing of the bourse on Saturday night.

Early reservations for the bourse have exceeded expectations. The majority, however, voted against including them in the coin folders.

NATIONAL COIN WEEK 1961

Coins and Currency of Yesteryears

Your plans for National Coin Week, April 23-30, 1961, should be nearing completion with all members alerted for a full scale promotion.

You should plan talks before civic clubs; prepare articles for your newspapers; draft scripts for radio and TV broadcasters; and by all means make arrangements for public displays in banks, libraries, jewelry store windows, automobile show rooms and schools.

Your exhibit cards, posters, entry blanks, etc., have been mailed and should reach you shortly. Check your entry blank for rules, point system and instructions. There are many ways in which to gain points, for the theme this year does not hinder any collector. With the added interest after good promotion you should gain new members for your local club, your state organization and the national group, the American Numismatic Association.

Be sure that your display of coins and paper currency is insured as a group. Your group insurance is not prohibitive and is most necessary.

The Governor of Texas has proclaimed National Coin Week in Texas. Contact your mayor and governor for proclamations for the Week.

All entries must be postmarked not later than May 25, 1961 and sent to the Awards Chairman, Tom McCrummen, P. O. Box 139, Austin, Texas.

I am most gratified with the interest shown thus far. Your letters and plans have been most interesting, and if carried out as outlined, I'm sure the Awards committee will have a wonderful time.

Obituaries

WALTER G. ARNOLD, FORMER A.N.A. NO. 16130

Walter G. Arnold, 59, 410 S. Virginia Ave., Belleville, Ill., died November 29, 1960, at Memorial Hospital. At the time of his illness, he was a civil service employee of Scott Air Force Base, having been so employed for the past 19 years.

Mr. Arnold had been a member of the Missouri Numismatic Society since 1951, and Secretary-Treasurer of the Society from 1952 to the time of his death. In 1958, he was accorded an honorary life membership on the occasion of the Society's twentieth anniversary. He was held in high esteem by his fellow numismatists. Mr. Arnold was congenial, accommodating, diligent, and efficient in the conduct of his MNS office, and will be greatly missed by his many associates and friends.

He also was associated with the Boy Scouts for many years on Merit Badges.

Survivors include his widow, Lucille; a son, Don R. of Dayton, Ohio; two brothers, Ray and Robert of Belleville.

NATHAN GOLD, A.N.A. NO. 22039

Nathan Gold, 52, 2905 Hampton Rd., Cleveland 20, Ohio, died January 4 at a Cleveland hospital of an apparent heart attack. Son of Mr. and Mrs. Rubin Gold, he was a graduate of Ohio State University and John Marshall Law School and a member of the Ohio bar. He belonged also to the B'nai B'rith.

For a time he was associated with his father in business but the onset of an incurable disease in the late 1940s caused his retirement after which he became quite active in Boy Scout work. As his illness progressed, physical exertion became less possible and he turned to numismatics as an outlet for his restless and inquiring mind.

He joined the American Numismatic Association, Central States and

Michigan State Numismatic Associations, Western Reserve Numismatic Society, Cleveland Coin Club, North East Coin Club and the Penn-Ohio Coin Clubs. He was a well known figure at conventions, to which he was accompanied by his wife, Marjorie, and son Ted. All three were interested in coin collecting and were sincere participants in and promoters of the hobby.

Recognized as an authority on U. S. paper money, and particularly small size notes, he wrote frequently on the subject for *The Numismatist*, *Numismatic Scrapbook* and *Numismatic News*. He was given almost *carte blanche* by the Bureau of Engraving and Printing for research and study in his chosen field. Nate, as he was familiarly known, was ever willing and eager to help his fellow numismatists with answers to their questions. As one expert in U. S. paper currency put it, "If you want to know anything about small size notes, ask Nate." His loss is a great one for the numismatic fraternity.

Surviving are his widow, parents and son; also three sisters and a brother. Burial was in Mount Olive Cemetery, Cleveland. — EGB

HUGH F. HURST, A.N.A. NO. 7997

Hugh F. Hurst, 80, of Richmond, Va., died after a short illness on February 1, 1961. He was one of the oldest pharmacists still active in the state, and had practiced his profession until a few weeks before his death.

"Doc," as he was familiarly known to most of us, was a collector of the old school. He was one of the founders, and the first president, of the Richmond Coin Club. Although he refused other terms as president, he appointed himself a membership committee of one and worked untiringly to bring worthy collectors into the Richmond Coin Club and the A.N.A. Staunch in his own honor and integrity, he would not tolerate shady dealings in others. He disposed of his personal collection several years ago but he never lost interest in his hobby or in his fellow collectors.

He is survived by his widow, a son and two daughters. — JAJ

WILLIAM J. SHERIDAN, A.N.A. NO. 22269

William J. Sheridan, 71, a Chicago attorney, died January 8, 1961. He lived at 615 Jackson Blvd., Oak Park, Ill. His estate is estimated at one million dollars. Surviving are two brothers and two sisters.

Mr. Sheridan was a member of the American Numismatic Association, the Chicago Coin Club and Oak Park Coin Club. He was always helpful to the junior or novice collector. Cheerful and friendly by nature, he will be missed by his fellow collectors of Chicagoland. — EGB

RALPH S. SHORT, A.N.A. NO. 21233

Ralph S. Short, 60, of 87 Ballantyne Brae, Utica 3, N. Y., died January 2, 1961, in the New England Baptist Hospital, Boston, Mass. Born March 14, 1900, he was the son of Henry and Emma Redway Short. Thirty-five years ago he moved to Utica. On July 3, 1923, he married Dorothy M. Damrath in Utica. For twenty-five years Mr. Short was a salesman for G. W. VanSlyke & Horton, and for the last twelve years he had been with George F. Murray, a local wholesale tobacco firm.

Mr. Short was a member of the Presbyterian Church and Oriental Lodge 224, F.&A.M. Joining the American Numismatic Association in 1953, he had been a coin dealer and collector for several years. At the time of his death he was President of the Mohawk Valley Coin Club, in which he was quite active.

Besides his widow, he leaves two daughters, Misses Jean C. and Audrey A. Short, of Utica, and three sisters. Rev. Ray H. Kiely, pastor of the First Presbyterian Church, officiated at the rites from the Williams Funeral Home. Burial was in Forest Hill Cemetery. — EGB

Early Greek Coinage — Early Greeks used bronze containing small percentages of nickel for their coins.

Dr. V. Clain-Stefanelli Addresses Archaeologists

Among the speakers at the sixty-second general meeting of the Archaeological Institute of America in Hartford, Conn., December 28-30, 1960, was Dr. V. Clain-Stefanelli, Numismatic Curator at the Smithsonian Institution. A summary of his paper "Comparative Die Studies: A Method of Numismatic Investigation and Its Historical Significance," follows:

The comparative study of ancient coin dies is one of the most important and exact methods of investigation available to the numismatic researcher. For example, by establishing a chronology of coinages based on the study of the sequence and interchange of dies of the rather limited series of gold coins issued during the first century B. C. at the Greek city-state of Kallatis, it was found that only six dies were used for the obverse, but at least twenty-two dies were needed for the reverse. Assuming — based on other evidence — that the moneymen functioned for one year, and considering that the different monograms and initials on the reverse refer to different moneymen, it can be demonstrated that up to five reverse dies or unprotected punch dies were prepared during one year, while the encased, and therefore protected obverse or anvil dies were used for four or even five years. This proves, of course, that the knowledge concerning hardening processes of metals was rather progressed.

For various reasons it must be assumed that the striking of these gold coins was connected with the extensive war preparations against Rome of Mithradates VI Eupator. He was defeated in 85/84 B. C. and the last gold issue in Kallatis should logically approximate that date.

Since each monogram or moneyer's initials becomes the equivalent of one fairly well determined year in a sequence, the series may be dated between 93 and 85 B. C.

Other numismatic papers read were "A Monetary Liturgy in Hellenistic Athens," by Margaret Thompson of the American Numismatic Society; "Countermarks on Greek Imperial Coins During the Monetary Crisis of the Third Century," by Tom B. Jones of the University of Minnesota.

— The Editor

The **Santa Barbara Coin Club** has set the date for its third annual Coinarama — August 5 and 6. We feel that those who have attended before will say "nuf said," but will give others further information soon. All collectors in the area should set these dates aside now so that they will not miss this top-notch convention. Sixty-one heard R. F. MacFarland give a timely talk on "Insurance As It Pertains to Coin Collecting" at the January 16 meeting. The outbreak of robberies being reported recently is making us give more consideration to insuring our collections. The newly adopted "Auction Service Sheet" is proving very helpful to both members and the Club in avoiding misunderstandings and as a record of transactions. — GWEN SENTIS, Sec.

(Editor's note: We received a copy of the auction form mentioned and believe other clubs would find it helpful. Perhaps Miss Sentis would send a copy to any club requesting it—2019 Mountain Ave., Santa Barbara, Cal.)

At the 116th meeting of **San Gabriel Valley Coin Club**, Irving Viner gave an account of a recent six-month trip abroad. We were particularly interested in his visit to Seaby's in London and of his business transactions there. Among the fine displays about which members gave short talks were: type set of gold, Frank McPeak; early counterfeit C.S.A. note, Joaquin Mendez; 1799 British penny and halfpenny, Robert Northwood; \$20 Hawaiian bill with seemingly misspelled "Hawaii," Henri Heller; 1836 pattern half dollar with reeded edge, I. Newton Sanders; Heraldic Art Boy Scout medal, Dan Sheets; old Scot tokens in a chamois bag, Gladys Miller; Boy Scout requirements for which twelve-year-old member Mark Wohlwend won a merit award; two Elsenhower inaugural medals, Robert Modisette; Morton Coop's trade dollar made into a locket.

The 117th meeting in December was conducted by Miss Alva Christensen, president, in the regular meeting place at the Huntington-Sheraton Hotel in Pasadena. Displays are an important part of our meetings and the following were enjoyed; occupation currency by Jack Wohlwend; 1817-S off-center cent by Mark Wohlwend; Hong Kong dollar by Irving Viner, who gave its value as

12¢ which will buy a package of cigarettes in Hong Kong; two gold dollars by Catherine Zangle; postage currency by Robert Zangle; three commemorative half dollars depicting ships, Robert Northwood; embossed coins by Dr. Charles Mason; set uncirculated Mercury dimes by Dan Sheets; Philippine coins retrieved from the Manila Bay where they had been dumped prior to the Japanese invasion, James Farrell; set of proof nickel three cent pieces by M. N. Harris; a beautiful set of uncirculated Walking Liberty half dollars by M. H. Bolender. — ETHEL R. STONE, Corr. Sec.

John Habeger gave members of **Billings Coin Club** a most informative account of his recent visits to the Chase Manhattan Bank's Museum of Money in New York, the Mint in Philadelphia, and the Bureau of Engraving and Printing in Washington, D. C., at the December 22 meeting.

An organizational meeting of the **Northwest Central States Numismatic Association** will be held March 25-26 at the Northern Hotel, Billings, Mont., with the **Billings Coin Club** as host. Chairman is Francis H. B. George, 27 Yellowstone Ave., Billings. Exhibits, bourse, auction and a banquet are highlights. A large turnout from North and South Dakotas, northern Wyoming and Montana is expected. Wooden "nickels" commemorating the event are ten cents each plus stamped, self addressed envelope. — BETTY MONROE, Publicity Chairman.

Newly elected officers of the **Mount Vernon (Ohio) Numismatic Society** are: president, Barbara V. Maxwell; vice president, W. C. Coon; secretary, John C. Crim; and treasurer, Kenneth B. Morrow. — BARBARA V. MAXWELL, Ex. Sec.-Treas.

The **Louisville (Ky.) Coin Club** will hold its Spring Coin Show on May 27 and 28 in the Sheraton Hotel, featuring exhibits, auction and bourse. Last November's show drew 1,500 visitors and we believe this one will be bigger. Bourse tables at \$25 for the two days may be secured by contacting Lt. O. L. Walters, 6400 Greenview Dr., Louisville, and he will take care of hotel reservations also for out-of-town guests. Under the direc-

tion of Lt. Walters as president, this Club grew in membership from 38 to 250 last year. We are sponsoring a "Junior Membership Contest" with prizes for the juniors bringing the most members into the Club. We feel that the future growth of the hobby depends upon guiding and informing the youngsters in the more important phases of numismatics. — DAVID L. SIMMONS, Pres.

Fifty-five members were present at the January 16 meeting of **Utah Numismatic Society**. Promptness prizes were won by Max Smith, Mel Beesley, Irene Plant and Mary Spillman. The following officers for 1961 have been elected: president, Joseph W. Plant, Sr.; vice president, Robert E. Glade; secretary-treasurer, Joseph W. Sterner; directors, Karl C. Dean and Norman Shultz; librarian, Dee Bradshaw; curator, David P. Sugden. Retiring president Karl Dean was presented a \$5 gold piece in recognition of his services, and the other officers received cast aluminum plaques of the club seal, beautifully done by Dave Sugden. Honorary membership in the Society was voted to Mrs. Rae V. Biester, Superintendent of the U.S. Philadelphia Mint, and to Mrs. Elizabeth Smith, new Treasurer of the United States. Donations to the Fred W. Zastrow Memorial collection were as follows: Karl Dean — a 1960 proof set and 1896 dollar; Lowell D. Reese — an 1885-O dollar; and Clifford Crane — a 1937 Oregon Trail half dollar. In the auction, a fine 1909-S VDB cent brought \$51.00. — C. E. CRANE, Editor, *The Utah Mintmaster*.

The **Chicago Coin Club** has announced that its annual Fall Festival is "going national" and will be greatly expanded to the three days of October 13-15. Activities, such as a big bourse of about a hundred noted dealers, exhibits, auction and other events usually associated with large regional conventions, will be held in the Hotel Sherman. The American Numismatic Association, Central States Numismatic Society and the Professional Numismatist Guild have been invited to hold their interim board meetings during the Festival. "Watch for further announcements, or, if you're in a hurry, write me," said General Chairman Harry X Boosel, Second Fl., 65 E. South Water

Having completed his term in office, **Chicago Coin Club** President Glenn B. Smedley hands over the gavel to the newly elected president, Hugh M. Knight. Smedley in his many activities with the A.N.A. did an outstanding job for the C.C.C. Knight has collected coins for over thirty-five years and is Coin Editor of the **Chicago SUN-TIMES**.

St., Chicago 1, Ill. "Chicago, the numismatic crossroads of the world. Eventually — everything and everybody comes to Chicago!"

The **Oak Park (Ill.) Coin Club** held its 119th meeting on January 13, with an attendance of ninety and the new president, James Grebinger, presiding. Committee chairmen for 1961 were announced as follows: auctions, Win Hagey; National Coin Week activities, Larry Brueck; annual Open House show in November, Irving Harris; exhibits, Fred I. Catalano; *Prattle* editor, Francine Moment; programs, Glenn Smedley. Harry Flower presented the Past President's medal to Irving Harris, with commendations for his accomplishments in 1960. We had twelve excellent exhibits by members, most of whom gave short talks about them. The program consisted of a quiz, with members being asked to give answers and comments on fifteen numismatic questions. A panel of three "experts" decided (amid some heckling) that Don Doswell contributed most to the dissemination of knowledge and awarded him the prize of a 1959 mint set. All communications to this club should be addressed to P. O. Box 167, Oak Park, Ill. — S. A. VAN PETTEN, Sec.

The **Chattanooga Coin Club** announces the following officers for 1961: president, R. J. Partain; vice president, John E. Steffner; secretary, Wm. G. Swafford, Jr.; treasurer, Mrs. Harris E. Clark. We meet the third Monday monthly at the Brainerd Branch building of American National Bank. All communications should be directed to the secretary at 5321 Connell St., Chattanooga 11, Tenn. — WM. G. SWAFFORD, Sec.

Late in the past year, the **Missouri Numismatic Society**, St. Louis, lost two of its top officers as President Stanley B. McClintock, Jr. resigned due changing to a new location, and W. G. Arnold passed away following a serious illness. Following the election at the January 9 meeting, we have the following new officers: president, Edward Boehme, Sr.; vice president, Albert H. Wick; secretary, Mrs. Bernice Stevenson; treasurer, John S. Stevenson; governors, Tom Elder, Charles Page, Christian Schlather and Joseph Rataj, the latter two having been re-elected. We are glad to report that the St. Louis Coin Festival at the Statler Hotel on October 29 and 30 was most successful, having been attended by some 750 persons. As a result, we have admitted thirty-one new members and have had well over a hundred in attendance at the last three meetings. Christian Schlather, an authority on the various facets of collecting gold coins, gave a most informative and comprehensive talk on the current gold situation which was timely. — MRS. BERNICE STEVENSON, Sec.

Members of the **Philadelphia Coin Club**, at its 307th meeting in January, voted to advocate to President Kennedy that Mrs. Rae V. Biester be retained as Superintendent of the U.S. Mint. Professor Thompson of the Glassboro State Teachers College spoke on the Frank N. Stewart collection of books and papers relating to the first U.S. mint. Exhibitors included Frank Lacheen — a 1907 proof set; Ernst Kraus — new issue coins and the inaugural medal; Paul Wilkening — stamps and coins on buttons and patterns of Argentina. The latter was voted the best of the evening. — THOMAS E. WERNER, Sec.

With an attendance of 256, the **Los Angeles Coin Club** held its 394th meeting at Foresters Hall on January 6. The newly elected officers for 1961 (see February "Club News") were installed, with praise for the leadership of retiring president Murray Singer and his officers. An unusually interesting program on "The Story of the United States Mails" was given by David H. Roland, Postal Services representative. Besides showing films of commemorative stamps, he told of early public postal service, the first U. S. postal system, early postage rates, the pony express which was started in 1860, the inauguration of parcel post and air mail services, the increasing volume handled, how the American story is told by stamps, and future plans for still better service. Our thanks to the speaker and to Thomas Wood, our new second vice president, for arranging this program which got the year off to a fine start. — CAROLYN OLSON, Corr. Sec.

Officers for the coming year were elected at the December 19 meeting of the **Utah Numismatic Society**, as follows: president, Joe Plant; vice president, Bob Glade; secretary-treasurer, Joe Sterner; curator, Dave Sugden; librarian, Dee Bradshaw; director-at-large, Norman Shultz. For the Buy-of-the-Month, Gene Viers had prepared 1960 mint sets at \$2.20. The Philadelphia half dollars had not arrived yet and the dimes turned out to be dated 1959, so adjustments will be made later. Outgoing president Dean noted that faro dealers in Reno and Las Vegas advise holding \$5 and \$10 silver certificates, as they expect them to be withdrawn. We understand that Congressman Gray of Illinois intends to present a bill to Congress to make illegal the altering of dates on coins. Among those now being faked by altering are 1931-S cents, made from 30-S and 36-S cents. These can be detected by the resulting improper spacing of the 1 following 3. — C. E. CRANE, Editor

With a visit from Santa Claus and the Mayor, the **Fontana (Calif.) United Numismatists** held its December 9 meeting at the Eagles Club. The mark in 1914, backed by nine hundred million dollars in gold and worth \$0.238 in our money, dropped to where one dollar would buy one million marks in July, 1923. Before that year ended, one dollar would buy over four billion paper marks. The speaker brought out the hardship and suffering which this enormous inflation caused the German people. He displayed many of the multi-million mark notes and gave some to listeners as samples of inflation money.

Both British and colonial mints issued these coins. From his own collection, he exhibited 144 coins, representing as many colonies, and stated that about fifteen more were needed to complete a collection of one coin from each British colony. He also showed a set of seventeen different pieces of the Queen Victoria jubilee coins. In answering questions at the close of the talk, it was brought out that colonial coins were issued in all denominations and metals commonly used by the mother country. — HERB BERGEN, Sec.

(Pat) Brown visited the party, but the climax was a visit from Santa Claus, who distributed to each child three individually wrapped and name-tagged presents of toys, candy and clothing.

(Editor's note: Congratulations to the Sacramento club on this worthy undertaking! Perhaps it wasn't numismatic, but we venture the opinion that such actions do much to further the hobby of numismatics.)

Bolender, internationally known dealer, has been buying and selling coins since 1906, when he was only twelve years old. Steven, who has been collecting for several months, is now seven. No member of his family is a numismatist but he does very well by his own efforts. Santa Claus was present and gave the children stockings of candy and folders of uncirculated coins. An auction at Lucerne drew the foremost European dealers but proved to be a very slow affair, several days being required for selling some eight-hundred lots at the rate of about fifty per hour. THANK YOU FOR ALLOWING US

to start our TWENTY-NINTH YEAR AS PROFESSIONAL NUMISMATISTS. After all, it is you, the collector, who keeps us in business. Little did we realize in 1928 when A. M. Kagin started collecting, that instead of "playing with coins" part time, R. O. Hollinbeck (founder) would allow him to "play full time" starting in 1933. We still enjoy "playing with coins" and have the additional enjoyment of helping others to "play with coins."

HAPPY ANNIVERSARY

For a number of years our anniversary message has appeared about this time each year. Each year our many friends (collectors and dealers) have wished us a happy anniversary. May we take this occasion to publicly acknowledge these many felicitations, and thank those who have extended them.

A. M. (Art) and Paul Kagin

British coin folders

**FOR
MODERN
BRONZE
COINS**

To accommodate the growing number of collectors who want to properly protect and classify their British coins, Whitman has just released a new group of coin folders. A total of ten folders has been designed to hold all of the British pennies, halfpennies and farthings from Victorian 1860 to the present day Elizabethan coins. Each folder has the popular Whitman "open-flat" feature that permits you to view all your coins at one time. There is space in each folder for all the regular coins in the series. Mint marks are given, and historical background that pertains to the series is included in each folder.

**FEATURES LIKE THESE ARE RESPONSIBLE FOR
WHITMAN'S ENVIABLE REPUTATION FOR QUALITY:**

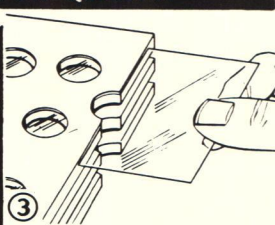

① EXCLUSIVE STUB-HINGE CONSTRUCTION

Rugged and yet flexible, stub-hinge construction prevents stress and strain. Pages are securely hinged, open wide and lie flat.

② HISTORICAL INFORMATION AND MINT RECORDS

The inside front cover of each volume gives interesting detailed information about the coins it houses. There is also a complete mint record together with a mint mark reference.

③ SEE COINS FROM BOTH SIDES

Pages are sturdy dura-board with crystal-clear acetate slides to give two-side visibility and protection. Thumb notches make it easy to "open windows" for insertion or removal of coins.

THE DEMAND WAS FANTASTIC!

FOR

The Numismacase by Betken

only \$19.95 postpaid

When we first announced the new Numismacase last month the demand was fantastic. Our entire first production run was sold out in less than a week. We apologize to those of you who experienced a slight delay in receiving your order.

We have just completed a new quantity production of the NUMISMACASE and now offer them ready for immediate shipment.

The NUMISMACASE by Betken represents an entirely new concept in the transportation and storage of your coins. The NUMISMACASE combines convenience and ease of handling with low cost – something that has never been done before.

CHECK THE EXCLUSIVE FEATURES OF THE NUMISMACASE:

• **Construction** – Reinforced with heavy stitching and sturdy rivets for extra protection. Two separate outside locks furnish extra security. The NUMISMACASE is attractively styled in a light brown color. Your choice of up to three monogrammed initials in 24k gold at no extra cost.

• **Capacity** – The NUMISMACASE excels in this important feature. It holds ten long coin boxes without crowding or tipping. Your coins are always in order and are always accessible. End the annoying inconvenience of suitcases, briefcases and other containers not especially made for coins. In addition to your coin boxes (or rolls), your reference books, price lists, publications, etc. may be conveniently stored in a special inside partition.

• **Many Uses** – Use the NUMISMACASE to take coins to club meetings, to conveniently store boxes or rolls of coins at home, to take coins to conventions or exhibits and to keep all your numismatic books, folders, cases, holders, boxes and envelopes in one place. A must for every collector.

• **Low Price** – The NUMISMACASE is priced at a low \$19.95; below the price of comparable quality briefcases, attache cases or suitcases. \$19.95 is the complete price . . . this includes 10% federal tax and is postpaid.

WAIT NO LONGER, ORDER YOUR NUMISMACASE TODAY, IMMEDIATE SHIPMENT FROM OUR STOCK.

Use the convenient coupon below for ordering.

A Word to the Wise is Sufficient.

We will stake our professional reputation on this prediction: It is our belief that not more than 2,000,000 1960P small date cents were minted, and if our belief is correct we predict this 1960P small date cent will skyrocket in price to at least the current selling price (\$24.00) each of the 1931S in BU condition. To further explain our prediction and strengthen our own belief is the fact that the new Whitman folder for cents is now carrying a space or opening for both the large and small date 1960 cents. We are informed by reliable sources that the 1962 Yeoman's Guide Book will also catalog the 1960P&D small date cents. We have a fair supply of these cents on hand and will offer them, at this time, at a ridiculously low price.

1960P small date cents, \$82.50 per roll, plus pp & insurance.
 1960P small date cents, singles, \$2.00 each plus pp & ins.
 1960D small date cents, \$2.50 per roll plus pp & ins.
 1960 small date proof sets, \$13.00 per set plus pp & ins.
 1960P&D large and small date cents (4 coins) in snap purse type plastic holder, \$2.50 per set plus pp & ins.
 1960P (large date) cents, \$57.50 per bag, Railway Express collect
 1950D nickels, \$150.00 per roll, plus pp & ins.
 1950D nickels, singles, \$3.75 each plus pp & ins.
 1960P halves, \$11.25 per roll plus pp & ins.
 1960P quarters, \$11.50 per roll plus pp & ins.

Another item that is bound to advance in price and will be listed in the 1962 Guide Book:
 1945S "Microscopic S" Mercury dime, BU, \$8.00 each plus pp & ins.

TRANSITIONAL COINS

1858 Indian Cent — Obverse and reverse identical to regular issue
 1859 Indian cent in all respects except the date. Very rare, only about 200 pieces known. Much rarer than the 1856 flying eagle cent, also a transitional coin.

1863 Indian Cent — Struck on a thin bronze planchet, type of 1864 and later years. This transitional item is important as the forerunner of today's small bronze cent. Rare. Brilliant Proof 225.00

1865 \$10 gold with reverse motto IN GOD WE TRUST. Struck copper. A very elusive coin . . . the first we have had in several years. Brilliant Proof 275.00

PATTERN COINS

We offer a choice selection of pattern coins attributed to Judd numbers. With the increasing interest in this series, patterns promise to be a good investment. And why shouldn't they be? There are fewer than 100 pieces known of the vast majority of the various varieties. The series is in need of a reliable pricing guide. We have paid from five to fifteen times the Judd price for numerous patterns.

CONSIDERING THE SALE OF YOUR COLLECTION?

Much careful thought was given during the years in which your collection was formed. The same careful consideration should be given to the sale of your collection. You want to realize the maximum price for your collection without undue difficulty.

During the past years we have handled many of the finest coins and collections to be offered for sale. These have ranged from small collections to some of the very largest. Included have been many of the greatest United States rarities.

Why have we been able to buy so many fine coins and collections? The willingness to pay a generous price is an important reason. We have always based our purchase offers on a first hand up-to-the-minute knowledge of coin market conditions. This, together with a large sales volume, has enabled us to operate on a smaller margin of profit.

Another factor of success in our coin buying is knowledge and experience. In addition to handling many collections of the regular United States series we have had extensive experience in the purchase and sale of the more diverse series . . . tokens, store cards, patterns, territorial gold, Colonials, etc.

A third important factor is financial responsibility. We have always given prompt payment without delay, in both purchase and auction arrangements. We invite you to check our professional financial references.

When you decide to sell your numismatic holdings give us the opportunity to make an offer. There will be no obligation whatever on your part. If you prefer to sell by auction we offer expert, authoritative cataloging with proven results. We believe you, like many other collectors, will like the way we do business. May we look forward to the pleasure of hearing from you?

Collectors Prefer America's First Family of Coin Albums The Library of Coins

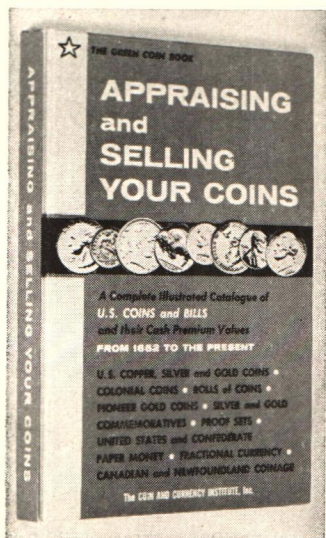

The Library of Coins is the first major innovation in high grade coin albums in more than 30 years. They were several years in development and were designed by numismatists to satisfy the needs and desires of numismatists. Write for a descriptive circular on the Library of Coins.

The Green Coin Book

"APPRAISING AND SELLING YOUR COINS"

a complete illustrated catalogue of U.S. coins and bills and their cash premium values, from 1652 to the present. And the complete coinage of Canada and Newfoundland, from 1858 to the present. Edited by Robert Friedberg.

**Hard Cover, Handy Size (5" x 7 1/2"), Fully Illustrated,
176 Pages, Price \$1.75**

Only in the Green Coin Book will you find the wealth of coin features being published together for the first time in one superbly produced and well designed book, such as you have grown to expect from the publishers. No other similar book, past or present, can offer the variety of valuable coin information presented here so expertly, so completely and yet so inexpensively.

You get not only a complete catalogue of the standard U. S. coins from 1793 to date in all metals, denominations, dates and mints, but also the following subjects, never before assembled into one volume:

- Rolls of Unc. coins from 1934 to date.
- U. S. Paper Money from 1861 to date.
- Colonial and early American coins.
- Confederate States Paper Money.
- Pioneer Gold Coins.
- Canadian and Newfoundland Coinage from 1858 to date.

The Green Coin Book is extremely well illustrated, coinage figures are given alongside each coin and all items show the average prices paid by dealers.

The publication of the Green Coin Book, "Appraising and Selling Your Coins," is a major event in coin literature. It satisfies an obvious need and does it very well. In this day of intense numismatic activity, no one should be without this book.

For only \$1.75 you get a new standard work, crammed with so much important information, that you will consult it constantly. It is truly a unique book; it is authoritative, and for what it contains, it is an incredible bargain.

PRESENTING A NEW KIND OF COIN BOOK FOR ALL COLLECTORS, INVESTORS AND COLLECTOR-INVESTORS!!

UNCOVERED!

THE PRICES OF UNCIRCULATED U. S. COINS FOR EACH SEPARATE YEAR SINCE 1935!

A FASCINATING YEAR TO YEAR HISTORY OF COIN PRICES THAT WILL OPEN YOUR EYES!

LEARN WHAT THE YEARLY PRICE CHANGE PERCENTAGE HAS BEEN ON EACH COIN. MANY SURPRISES IN FIGURES REVEALED!

WHAT WILL YOUR EXPENSIVE COLLECTION, YOUR COIN INVESTMENTS, BE WORTH IN THE YEARS AHEAD . . . WHAT ARE THEIR "MATURITY" DATES AND VALUES?

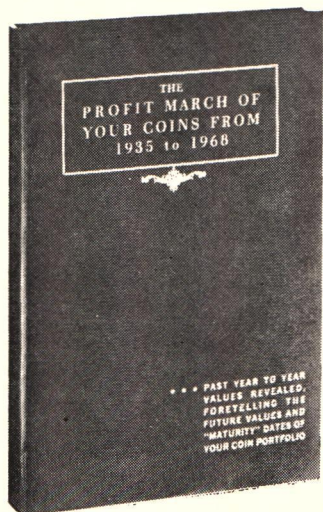

For the first time this priceless data is made available in "The Profit March of Your Coins from 1935 to 1968." Here you will find a scientific and accurate scale of future values based upon what each coin has done in the past. Up until now such predictions were based on the mere pulling of a hypothetical figure out of the air. You'll see how coin prices change over the years,

the price change percentages, coinage totals, projected prices from 1961 to 1968, comments on the future . . . on each and every uncirculated coin or proof set. Reading this guide will leave you with a new respect for your investment.

Until now the factors involved in coin futurities have not been presented so there has been no yardstick with which to measure the possibilities. Now revealing pages mathematically prove that most investments in coins will, regardless of present confusion, produce future yields that will far exceed expectations!

If you have a valuable collection or have set aside rolls, you should know how long it will be before your coins are worth a certain set amount of money . . . enough, perhaps, for college educations . . . travel . . . or even partial retirement (it has been done). You'll get the answers when you have this unusual book before you. You will be shown the individual price pattern of each coin, the length of each cycle and the frequency of change. With this set pattern you can observe how long the upsurges and the downsurges lasted in the past and govern future actions accordingly.

"THE PROFIT MARCH OF YOUR COINS FROM 1935 TO 1968"

LEARN WHICH COINS ARE LIKELY TO INCREASE IN PRICE FIRST . . . WHICH WILL OFFER THE BEST SECURITY OVER THE YEARS.

Inasmuch as the past is but a mirror of the future, it would behoove any coin collector or investor to seriously review the past price history. Such records have always been available in other investment fields. Now for the first time you have that same opportunity. Don't guess or worry any longer because of a lack of investment knowledge.

Carson City Morgan Dollars
All Strictly Uncirculated

The 1885 Carson City Dollar with a mintage of only 228,000 is the fourth smallest mintage of all Silver Dollars from 1878 to 1935. To own one of these in strictly brilliant uncirculated condition for only \$15.00 is one of the scarce coins all collectors should have; and to own a roll of 20 with an investment of only \$225.00 should not be overlooked by all investment minded collectors.

For comparison the 1889-CC Dollar, total mintage of 350,000, is now selling for \$150.00 each; the 1892-CC Dollar, mintage over one million is selling for more than \$20.00 each; and the 1879-CC Dollar, with 756,000, has a price tag of about \$85.00.

Our Special Price for the set of six 1880 to 1885 is \$59.50. The proof-like CC Dollars listed below have a beautiful mirrored field.

Please keep in mind that all these Dollars are strictly Brilliant Uncirculated Coins and the ten different dates listed below are certainly well behind the spectacular rise in price of most desirable coins in the past year.

Useful for cleaning all kinds of coins, but particularly adapted to cleaning coins of copper or nickel.

**EASY TO USE AND ECONOMICAL!
FAST ACTION — IT ACTUALLY
CLEANS IN SECONDS!**

Does not add shine, but brings out natural color, including original brilliance if it is still there under tarnish or coating. Dull or dark uncirculated coins become brilliant uncirculated coins in seconds.

This result of years of experiment can be safely used on valuable coins to improve their appearance and increase their value.

On sale in many leading stores in 4-oz. bottles, with full directions, at \$1.00.

If your dealer does not yet have it, send us \$1.00 for 3-oz. bottle (enough to clean hundreds of coins) carefully packed and postpaid to any address in the United States or Canada.

SPECIAL OFFER TO DEALERS

Send \$4.00 for six 4-oz. bottles of "CCC," postpaid.

NEW HAMPSHIRE CENT

We have recently struck copies of the famous Wm. Moulton New Hampshire cent which was pictured in the Red Book in the Colonial section. There are only two specimens in existence, one in the John Hopkins Museum and the other piece, which we discovered several years ago, is now in the hands of a well known Cleveland collector. We have never seen a copy or electro of this almost unique item. The pieces are well struck and the word "Copley" is on the reverse in small letters to distinguish it from the original. A limited number of pieces have been struck. Bronze, \$5.00 each. We have a large stock of numismatic material.

Price list free. Your wants solicited.

Please include 25¢ for postage and
handling on orders under \$15.00.
